

Dear members, dear guests,

Below you will find some information about the winter_rules in the coming weeks and months:

We have to take care of our teeing areas and greens in the winter months because of the pleasingly high capacity utilisation during the season.

The tee_markers have already been moved forward.

The flagsticks will probably be moved from summer greens to winter greens from mid-December onwards.

From **Monday, November 30.**, we ask you to play with **carrying bags only**.

Only in medically absolutely necessary exceptional cases it is permitted to use a trolley with half a set (=max. 7 clubs) without battery.

Please note the morning closing times due to ground frost and only play during a released and booked starting time. **The golf course is closed outside the approved times!**

We kindly ask you to handle the course with care, especially in autumn/winter. Repair pitch marks on the greens and replace divots.

In the last few days, retrieved more and more range balls from the working areas of the new bunkers.

Despite the numerous closed areas, it is not allowed to play with range balls on the courses.

Without exception, it is not permitted to take range balls from the driving range.

Thank you for your attention and understanding!

We wish you beautiful autumnal rounds of golf and a wonderful Advent season.

Best regards

Mark Niendorf and the Hof Hausen vor der Sonne Golf Team
